RAILROAD SOLUTIONS

ONE STOP SOLUTION

A HISTORY OF PERFORMING QUALITY RELIABLE SERVICES

What started in 1964 as a simple electrical company has grown into a booming business offering 15 services across North America. In the past 3 years alone, we have seen a 75% annual growth rate — a testament to our dedication to excellent service.

Today, we proudly provide industry-leading electrical services and signal maintenance for short-line railroad companies across the nation.

SAFETY: We practice the highest standards in work safety. We ensure our people are cared for and our job sites are left safer and cleaner than we found them.

PEOPLE: We encourage our employees to continue their training throughout their careers. This delivers better, more forward-thinking results for our customers.

INTEGRITY: We do what is morally right and refuse to change. If we notice something, we say something and find a solution to improve it.

ACCOUNTABILITY: From the words, we speak to the actions we take, we accept accountability regardless of the consequences.

EXCELLENCE: We commit to excellence in everything we do, focusing on quality and continuous improvement.

DELIVERING EXCELLENCE NATION-WIDE

Working with some of the biggest names in the railroad industry for Class 1s and short lines can be an exciting and challenging experience. As a service provider, working with these companies requires a deep understanding of their specific needs and challenges, as well as a commitment to delivering high-quality solutions that meet their expectations. Whether it's designing and implementing new signal systems, conducting maintenance and repair work, or providing consulting services, CDL works tirelessly to ensure our customers are satisfied with the final product. Through collaboration with these industry leaders, service providers can gain a deeper understanding of the railroad industry and contribute to the safe and efficient movement of goods and people across the country.

RAILROAD SIGNAL MAINTENANCE

RELIABLE, NATIONAL RAILROAD SIGNAL SERVICE

Our expertise ensures that your rail systems operate securely and efficiently to safely control your train operations. When your company needs full-service railroad signal maintenance, CDL can help.

- ▶ Serve over 3,000 crossings
- ▶ Maintainers in 33 states and 2 provinces
- ▶ Comprehensive safety services for signals and crossings
- ▶ Offer regular maintenance to ensure FRA and AREMA compliance

RAILROAD SIGNAL CONSTRUCTION

CERTIFIED INSTALLATION. CERTIFIED RESULTS.

Backed by decades of experience and a team committed to providing superior customer service and outcomes, CDL is the ideal partner for any and all railroad signal construction projects.

EXTENSIVE EXPERTISE

With over 3,000 crossings maintained, we have decades of expertise maintaining FRA standards.

SIGNAL EQUIPMENT INSTALLATION

We install a wide range of signal equipment and won't rest until all components meet exact specifications.

RELIABLE SERVICE

Choose us if you need reliable, quality work centered around building great relationships and lasting outcomes.

HORIZONTAL DIRECTION BORING

PRECISION BORING WHERE IT MATTERS MOST

CDL has the ability to take on directional boring and drilling for projects of any size. Whether it's running electrical lines, plumbing or anything in between, our qualified technicians are here to get the job right.

SAFETY FIRST

Safety is our first priority, just ask some of the top names in the railroad industry.

HIGHLY EXPERIENCED

We run thousands of miles of cables every single year.

AVAILABLE NATIONWIDE

Our experienced directional boring division travels around North America.

CUSTOM ENGINEERING

ENGINEERING MODIFICATIONS AS YOU NEED

CDL's team of in-house engineers provides an all-encompassing solution for the railroad industry. Our team of solution-finding engineers designs products that withstand the elements and are cost-effective for our customers. Our services include consultations, modification, and design concepts.

SIMPLIFIED INSTALLATION

Our knowledgeable and highly trained engineers simplify the installation of all our products.

INDUSTRY-LEADING EQUIPMENT

We utilize only top-performing pieces of equipment to ensure reliability and safety.

COMPREHENSIVE SUPPORT

We won't rest until we complete the project to a customer's specifications.

RAILROAD SIGNS

LONG LASTING RAILROAD SAFETY SIGNAGE

We have the skills and experience to address all your vinyl needs, from digitally-printed qualification tables to individually-cut letters.

We supply:

- ▶ Railroad crossbucks
- ▶ Grade crossing warning signs
- ▶ Safety Signs
- ▶ Flag Signs
- ▶ And More

At CDL, we use only FRA and AAR-approved vinyl material to supply our customers with decals for their transit needs.
